November 23, 2015 A little bit of snow on the Terrace mountains!

[Cast on this link](#) for **Current Highway Conditions**

How to read this webpage: Scroll down to read ALL the Current updates in **Red** highlighted in **Yellow** **The most up-to-date reports are DATE STAMPED** (Example: **Tue July 11/11**) **So when you scroll through the report look for these markers.**

Skeena River:

Skeena River is divided into four sections:

- Skeena 1** (non-classified) Exchamsiks River downstream to the ocean.
- Skeena 2** (class 2 water) Exchamsiks River upstream to 1.5 km above Kalum River.
- Skeena 3** (non-classified) 1.5 km above the Kalum River upstream to 1.5 km above Zymoetz River.
- Skeena 4** (class 2 water) 1.5 km above Zymoetz River upstream to the head-waters.

Water low and frozen over in spots. **Be careful walking on the ice!** I have reports Steelhead are being caught in the open sections. **Season Review:** Friends tell me Steelhead fishing this year was pretty good, despite a lower than average run, but these folks are all "very" experienced in this area and know all the hot spots and best techniques.

Ariel Koppers pro guide at [Kitimat Lodge](#) helped get his client get into this beautiful Skeena River Steelhead. Data shows the summer- run Steelhead is lower than last year and lower than average...but as you can see a few anglers have been successful landing these beauties...and with the fly rod too...wonder if the guide had anything to do with it?

The Seasons:

SPRING STEELHEAD

Spring Steelhead begins this late March for 6 weeks. If the run of Steelhead was like last year our guests are going to hit pay dirt.

CHINOOK SALMON

Starting in May, thru to August, Chinook Salmon we target either by Jetboats or spacious driftboats, on the rivers, or 30ft Aluminum, twin Volvo Diesel, ocean vessel. All our boat are fully equipped with top of the line gear.

COHO SALMON

Late July to late September all 5 species of Salmon are in full charge from the ocean to the rivers. We intercept these Salmon either in the Saltwater or small coastal micro streams, using like tackle or fly.

HALIBUT and CRAB

May to November is best for Halibut and Dungeness Crab. For 2014 the size limit for Halibut has increased, retaining a 70lb fish, up from the 60lb fish in 2013

SUMMER - FALL STEELHEAD

The lower 100 miles of the Skeena and its tributaries are a Steelheaders dream, miles of fly water to chase the elusive steelhead. With our access to **Classified waters** in Skeena country, this allows us flexibility and tranquility for our customers.

BOOK SOON - don't be disappointed:

Lakelse River:

Steelhead fishing is great! Water is low.

As of a few weeks ago: The Steelhead fishing only fair in mid to upper river. Some anglers are having a tough time catching them. Some anglers think it is not a big run this year? Jigs working best! **Tip:** Fly fishing is good technique. Instead of a fly I would use a bright red cocky as I knew the Steelhead were eating the Coho eggs that would escape from the Coho reds. Sometimes in the deeper runs I would tie on a flatfish plug and feed it into the deep pool. I know it is not a fly but no problem as the “fly-only” time is from Mar 1 to May 31. Also in the deeper runs I liked float fishing the corky with a little white wool. My friends and I really liked to fish the upper end this time of year while we waited for the Kalum River levels to drop so we could use our drifts and not have to compete with the jet boats. We would run our drift boats all winter and for many years the Steelhead fishing was simply outstanding and I know it still is. Good luck!

Zymoetz (Copper) River:

Regulation: No Fishing upstream of the sign at the transmission line crossing (downstream of Zymoetz Canyon) Jan 1 - June 15. Steelhead fishing below this closure is still permitted. Just need to find some open water and give it a shot. Need a guide for 2016 in either the Class one or Class two sections [contact me](#) anytime.

A nice week in November! Noel I fished the Copper, Kispiox & the Bulkley last week and had a great time, caught fish on all of them! This was my first fish landed on the Copper, you all live in a wonderful place and I'm very envious! Utahbill

Dennis Therrien with a really bright Zymoetz (Copper) River Steelhead landed first week September 2015. Note the cradle landing net.

-

Douglas Channel:

I have reports of good Salmon and Halibut fishing! Now when I say this fishing is good you got to know what to fish with, where to fish and how. Pink and Sockeye are out there too. Fishing for Dungeness Crab is simply outstanding. My suggestion is to [book a charter guide](#) for trip or two

Ariel Koppers pro guide at [Kitimat Lodge](#) holds up a nice Douglas Channel Halibut. Going ocean fishing out of Kitimat when local rivers are dirty is a good option.

Recommended Fly Fishing Gear:

Courtesy Chad Black [Nicholas Dean Outdoors](#)

In the low water conditions of early April, we generally used light sink tips to cover the shallow riffles and tailouts where Steelhead were holding. Type 3 and Type 6 tips were generally all that was needed for most conditions. With the higher flows of late Spring, and in particular on the tributary rivers, we've also been using Rio's MOW tips in a variety of weights and lengths to get the fly down to the fish. The Heavy MOW tips, made of T-14 material, have been particularly useful, in lengths of 5, 7.5, 10 and 12.5 ft.

As with March, best colours have been pink, black, blue and orange. When fishing the Skeena and its tribs, larger flies from 2.5" to 4" in length have been most productive. Smaller flies in a variety of weights in the 1" to 2.5" range have worked the best on coastal rivers.

When targeting Steelhead, we've been using rods in the 12.5' to 13.5' ft range, for a 7 or 8 weight line on the larger rivers. Our personal favourites for this fishing include the 7126 **Sage TCX** and the 8139 **Loomis Dredger**. When targeting Chinook specifically, we've been using heavier 9 and 10 weight rods in the 13' to 15' range. Single hand rods and switch rods have gotten the nod on the coastal rivers. In particular, I had a chance to fish a 8116 **Sage One** rod and can confirm that it's a very good rod that's ideally suited to the coast!

Rods, Reels, Lines: For Steelhead - Spey rods in the 12' to 14' range, with a **Skagit** head to match. A 7126 TCX paired with a 500 grain **Skagit Flight** and **Loomis 8139 Dredger** with a 525 grain **Skagit** are excellent choices. A good quality disc or cork drag reel (e.g. **Islander** and **Ross**) with a minimum of 150

yards of 30 lb backing. For Spring Chinook Salmon, same as above, except with heavier gear - 9 weight minimum, 10 weight better.

Sink Tips and Tippet: A 15' Type III and 15' Type VI for most shallow water applications, and a variety of **MOW** tips - medium (T-11) and heavy (T-14) for deeper and/or heavier water. Always 15 lb **Maxima Ultragreen** for Steelhead. Increase tippet to 20 lb **Maxima Ultragreen** if targeting Spring Chinook.

Flies: **Idylwilde** String Leech, Bunny Tube, Marabou Tube and Popsickle, in shrimp pink, cerise, black, blue and orange.

If you need info to book a pro fishing guide please [contact me](#) anytime.

Prince Rupert Ocean Fishing:

I received a report that the Salmon and Halibut fishing out of the port of Prince Rupert has been simply outstanding. One charter guide reports landing over 20 Chinook but of course his clients kept only their legal limit, plus they kept their limit on Dungeness Crab. If you would like to book an ocean trip just [contact me](#) anytime and I will do my best to get it all set up for you.

Fish from this **Grady White** for **ALL** the bottom fish plus **ALL** the Salmon, Dungeness Crab and Alaskan King Crab...with a captain who has over 40 years experience. If you are interested to book a charter please [contact me](#) anytime for **ALL** the details.

Terrace BC Canada:

Skeena Salmon Lodge Guiding

Flyfishing in Canada

Welcome to the Skeena Salmon Lodge Guiding! Our unique Lodge sits right on the banks of the salmon-rich Skeena River, surrounded by snow-covered peaks and pristine nature. In the north-western part of British Columbia, where you find Canada at its most beautiful, where lakes and rivers dazzle with their purity, and wilderness can be truly experienced, you will find some of the world's best salmon river; among them, the Skeena River, possibly Canada's best know salmon river. Join us and experience outstanding fishing while enjoying comfort of the highest standard in the primal wilderness of Canada. Thank you and tight lines, **Willi Schmidt**

Please visit our website for more info: <http://www.canada-flyfishing.com/en>

Skeena Salmon Lodge Chinook Report

Looking back on the last couple months, the Skeena Salmon Lodge Guide Team has prepared a write up on this seasons Chinook fishing. Beginning in early June, large, bright King salmon were being caught on a variety of rivers using various techniques. These early fish are generally some of the most aggressive and hardest fighting fish in the river! On smaller rivers like the Kitimat, Kiteen or Kincolith, anglers can target and catch Chinook on a variety of gear techniques as well as swinging flies with both single and double handed rods. Some of the smaller rivers like the Kincolith and Kitimat can have good numbers of Chinook in them starting in the first week of June! This year the Kitimat Kings showed up and immediately the fishing was on fire! Many fishing days had multiple hook ups and our guides were able to get clients into fish using both fly rods and gear rods.

This year the mainstem Skeena cleaned up just after the 2nd week of June. Once again, as soon as we put boats in the water we were hooking into Kings! Many people will remember this year as some of the best early season Chinook fishing in a long while. The most fish hooked in one day was 13, but these early fish are strong and will give you the fight of your life before you can even think about landing them. While the majority of fish are caught using one of several gear fishing methods, a mainstem Skeena Chinook will still attack flies and once hooked, you will have to use every possible trick to successfully play and land one of these monsters.

Moving into July, the temperatures began to soar and the fishing began to slow down. While most days still gave clients the chance to fight multiple fish, a heat wave caused both the fish and fisherman to become lazy. Moving into the middle of July, the heat wave began to break and the fishing began to pick up! Around this time, the largest of the Skeena Kings begin to enter the river and it is not unheard of to hook fish thirty, forty or fifty pounds and sometimes even bigger! Sometimes, with these fish, they can fight so hard and well that you have to chase them in the boat! Racing after an angry and strong Skeena Chinook with both reel and engine roaring desperately trying to catch the fish before your reel is empty, not many things can compare to fighting these fish. For booking or more information please contact Willi Schmidt at willi.schmidt@canada.flyfishing.com and with the end of chinook season marks the beginnings of the steelhead and coho runs...

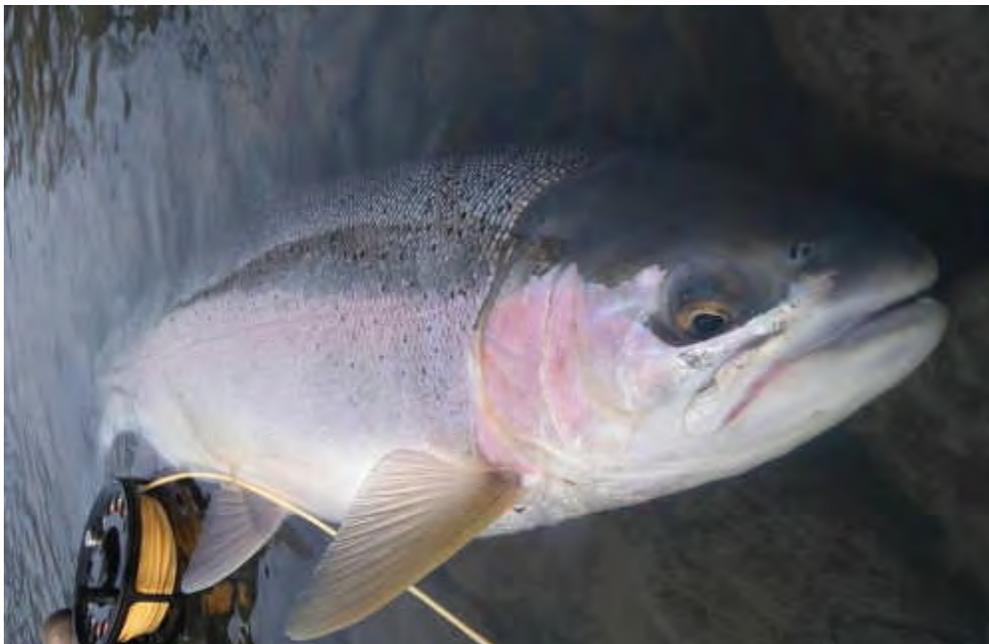

All Northwest BC river height info:

Water is important for a number of natural resource industries and water data is not always either shared or accessible. This portal is like a clearing house for water data from a variety of sources.

One feature of the portal that may interest you is the real time and historic stream flow information for some of the rivers we fish and report on.

Cast on this link to enter the portal: <http://waterportal.geoweb.bcogc.ca/>

Recent Top Photos:

November 17 to December 8, 2015. Mandi with a beautiful Skeena trib Steelhead landed this fall. She also demonstrates the “best” catch and release technique. Well done Mandi! Photo credit: **Greg Buck**. If you are interested in hiring a fishing guide for river or ocean and want to learn how, where and when to catch these fish, please [contact me](#) anytime and I will help make the arrangements for a trip of a lifetime!

November 3 to November 17, 2015. Hope you all enjoy this beautiful pic of a Skeena trib Steelhead landed and released while spey fly fishing this fall. A very special thank you goes to **Ariel Koppers** of [Kitimat Lodge](#) for allowing us to post it. If you are interested in hiring a fishing guide for river or ocean and want to learn how, where and when to catch these fish, please [contact me](#) anytime and I will help make the arrangements for a trip of a lifetime. **Cast on photo to view in larger size**

October 20 to November 3, 2015. Photo by **Ariel Koppers**. Ariel is a pro fishing guide for **Tracey Hittel** of [Kitimat Lodge](#). Here is a bright Coho caught on the Kitimat River this season. It is NOT too late to try and catch these fish as the closure is not until October 31st. **AND** today the river is back in shape after the rains we've had. **AND** not just the Kitimat, many Skeena tribs are still fishing well for Coho and the closure dates are the same...**AND** on the Kalum River both Coho and Steelhead can be caught on the same

day. WOW...it does not get any better than this! These are the options in Northwest BC...**AND** did I say Pacific Coastal Rivers for Coho (some "top" secret)...**AND** Smithers BC area rivers (Bulkley, Morice and Kispiox)...**AND** outstanding lake fishing... **AND** ocean fishing out of Kitimat and Prince Rupert for Salmon, Halibut and Crab? Pass the garlic butter... I will stop now... If you are interested in hiring a fishing guide for river or ocean and want to learn how, where and when to catch these fish, please [contact me](#) anytime and I will help make the arrangements for a trip of a lifetime. **Cast on photo to view in larger size**

Aboriginal Tourism BC

Watch, learn and share this story of the Salmon:

Watch, learn and share this story of the salmon - an amazing showcase of the cycle of life and worthy to be named 'a local legend!' In the latest episode in our 'Meet a Local Legend' series, Xat'sull First Nation Elder Ralph Philips explains that the salmon reminds us of the struggles each of us has to go through and teaches us about the importance of honouring tradition and our own place in the cycle of life. #AboriginalBC

Letter from the Executive Director

Dear Noel,

Living Oceans has learned that something very odd is happening on and around open net-pen salmon farms on the British Columbia coast. A surprising number have sea lice levels that are completely out of control. Meanwhile, fishermen are reporting dead prawns and shrimp in their traps, or worse—there are no shrimp at all in areas they've fished for 30 years or more. We suspect there's much more to the story.

A wild pink salmon smolt carrying sea lice.

It's not too late to get involved with **Watershed Watch** activities this Fall!

The image is a promotional flyer for Watershed Watch. On the left is the logo, which features a stylized red fish and the text 'WATERSHED WATCH' and 'SALMON SOCIETY'. To the right is a photograph of a woman wearing a blue hat and a red shirt, shouting into a megaphone. The text 'Calling All Volunteers!' is written in large red letters over the photo. Below the photo, there is a green headline: 'Love talking with people about salmon? We've got the perfect job for you!'. This is followed by a paragraph in red and black text: 'We're looking for keen, friendly, enthusiastic volunteers to get outside and speak to people by your local waterways. You will conduct Watershed Watch's Salmon Survey and talk with people about salmon, water and their concerns.' Below that is another paragraph in black text: 'Unlike some volunteer opportunities, this can be done in your own home town. We're interested in gathering information from across B.C. You'll need to be a good listener and help people feel comfortable about giving their opinions. Get to know us a little better and be part of our team!'. At the bottom, there is a purple line of text: 'Your support during this very busy time is greatly appreciated!'.

For more information, as well as details of volunteer opportunities for events happening in the Fraser Valley in November, please [see our website](#) or contact Lina at lina@watershedwatch.ca

Guest Comments:

A letter in response to Rob Brown's Skeena Angler column "Setting Them Free" by Dennis Therrien:

After reading Rob Brown's Skeena Angler column "Setting Them Free" of Oct. 29, 2014, I couldn't help but feel that the steelhead stocks must be in dire straits and are doomed to extinction, unless we take drastic steps to turn things around.

The crux of his argument is...[full letter](#)

A letter in response to Jim Culp's letter in the Terrace Standard "Stop the Brickbats" by Dennis Therrien:

After reading Jim Culp's recent letter "Stop the brickbats" of Dec. 31, 2014, I could see that both of us are on a similar path, which is to do as little harm as possible to our wild steelhead, as recreational anglers. Where our paths diverge, is on overregulation.

Rob Brown's position on regulation change is...[full letter](#)

For Sale

West Coast of Vancouver Islands, BC Rogers Fishing Lodge

Owners of this Lodge say they have over 1050 guests booked thus far for 2015 season and did over \$2,000,000 in gross revenue for 2014. Certainly a real positive for any potential [Buyer to have a turn-key business](#)

Rodgers Fishing Lodge is located on the west coast of Vancouver Island about 90 miles due west of Campbell River in Esperanza Inlet. Rodgers is one of the busiest fishing lodges on the B.C. coast, entertaining over 1000 guests a year. They also enjoy one of the longest seasons on the coast, operating 19 weeks in 2013.

This will be their 31st year in the Sport Fishing business and their 20th year in Esperanza Inlet. Rodgers has shown a remarkable rate of growth over the past 3 years due mainly to an aggressive, innovative and successful marketing programme. Their gross revenue has more than doubled since 2010 and 2014 looks to be another banner year with over 550 guests already booked.

The Lodge has a location second to none as it is ideally situated to take advantage of some of the most outstanding fishing opportunities on the BC coast for Salmon, Halibut, Bottom Fish and Tuna. The addition of Tuna fishing this year will add a new dimension to the business and will add increased revenue to the months of August and September. The Tuna fishery is going to be a huge breakthrough in the future for West Coast fishing lodges. Rodgers Lodge is perfectly positioned to take advantage of it. Historically, the Tuna in their migration pattern will follow the warm water temperatures that occur along the Continental Shelf. In Rodgers Lodge's location the Continental Shelf is just 12 to 15 miles offshore as opposed to 50 miles offshore for places like Tofino and Bamfield.

Black Bear and Bald Eagles are regularly seen by the lodge. They have the largest colonies of Sea Otters on the coast and the Gray, Orca and Humpback Whales pass by on their way to and from the Bering Sea.

The owners love the business and wish that they were 30 years younger. However, they feel that it is now time to turn the reins over to someone who shares the same passion for the outdoors and who is looking for a wonderful rewarding lifestyle.

Asking price \$1,199,000

Please [contact Noel Gyger](#) if you are interested.

For Sale

ECO Tour Tenure license for sale:

It ranges from the Bulkley bridge just above the Suskwa down stream to Hazelton. Then down stream through Terrace to the salt water. Takes in the Bulkley down stream to Hazelton, Skeena, Zymoetz, Kalum, Lakelse, Kasiks, Exstew, Khyex. The Seven sisters hiking trails, Pretty much everything downstream of Hazelton. Great rafting, jet boat rivers, Bird and wildlife viewing, scenery. [Contact Noel Gyger](#) if you are interested.
